**At-Home Treatment Systems: Avon Anew Clinical Advanced Dermabrasion System**

"There are several ways to get the same radiance that a tan offers," says Soli Davis, a New York City-based aesthetician. "Microdermabrasion and glycolic and chemical peels are all great ways to fight aging and give your skin a healthy and even-toned glow." Obtain and maintain a natural glow with this at-home microdermabrasion system from Avon. The micro-crystal formula is released from an innovative dial-up tube in four progressively stronger levels for super-fast results. \$28 at [avon.com](http://avon.com)
